

USER MANUAL

TSA 3 Dial Combination Lock

SET YOUR OWN COMBINATION

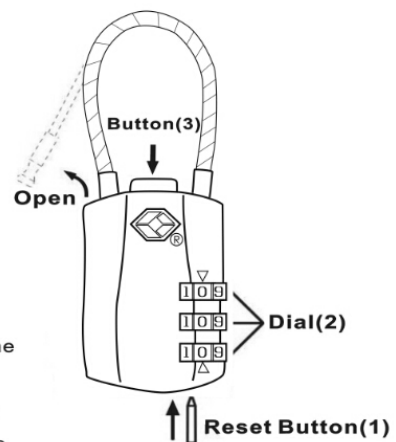

Locate the combination dials on the lock and enter the default preset combination: 0-0-0. Your new re-settable combination padlock is preset to open at 0-0-0, even though dials may be positioned at other numbers.

1. Press down the reset button(1) in direction of the arrow by a pen (or other tools), hold it until finishing Step 2.
2. Set your own combination by turning the dials(2).
3. Release the reset button(1). Now the setting is completed.

Then push the button(3), the lock will be opened by the new combination.

The Transportation Security Administration screeners and airline check-in staff at airports are trained to recognize the *Travel Sentry*® mark. They understand that baggage with locks displaying this mark are permitted to remain locked. Screeners are able to open these locks in the event that the baggage must be inspected. With *Travel Sentry*® Approved locks checked baggage can be screened faster, without having to break the locks.

Video Instructions are available on the Ody Travel Gear website:
